

# breakthrough

Breakthrough is the official magazine of the International Tunnelling Association's (ITA) Young Members Group (ITAYM).

Designed to foster international ties between young tunnelling engineers, as well as promote jobs in the underground construction industry to engineering students and graduates worldwide, the next edition of Breakthrough will be printed for the ITA World Tunnel Congress, in Dubai, UAE, April 2018, and distributed internationally with Tunnelling Journal's June/July 2018 edition.

The magazine will be packed full of articles on everything from industry roundtable interviews, project reports and feature articles, to individual member nation activities, and researching and progressing careers in the tunnelling industry.

## Reaching the Next Generation of Tunnelling Engineers

Promote your company and the work it does to the next generation of rising stars in the tunnelling industry.
