Tunnelling Journal

The International Journal for the Tunnelling Industry

Media Kit 2020
Incorporating World Tunnelling

www.tunnellingjournal.com
DON’T TAKE OUR WORD FOR IT…
A selection of testimonials from the industry

It is always interesting and beneficial to read the latest issue of the Tunnelling Journal. The Journal provides current news and can be relied upon to update the reader on recent developments in the industry. The editors are not afraid to touch on some troublesome, if not controversial editorial topics, and we admire the sharp pen approach! The journal is an excellent voice in the interest of the industry in terms of featuring site reports from challenging projects, and taking active part and covering industry events and conferences. Your global coverage is an asset. Your team of writers and approach is an honest one and true to the industry, and from our stance, is one of the best promoters of the modern use of underground space. You have been a forerunner in the adoption of new media technologies such as with your updated web page, newsletters and webinars. 

Tom Melbye, Senior Advisor, Normet International Ltd

Continuous progress underground is absolutely essential today for cities, nations, economies and finally the global community as a whole to prosper. The innovative players in global tunnelling have a decisive key competence of creating particularly sustainable values and assets by high-quality and high performance tunnel infrastructures. The premium magazine "Tunnelling Journal" not only certifies the engineering and operative progress in construction of underground structures. In print and online media, the editor-in-chief and his team also particularly present the fascinating professional diversity of our industry – with true journalistic demands and an impressively consistent quality.

Achim Kühn, Head of Group Marketing & Corporate Communications, Herrenknecht

We love working with Tunnelling Journal! They are a fabulous team of attentive, thorough and detail-oriented people who always go above and beyond to ensure Robbins gets optimal coverage, both in print and online.

Nancy Yun, Marketing Manager, The Robbins Company

We love working with Tunnelling Journal! They are a fabulous team of attentive, thorough and detail-oriented people who always go above and beyond to ensure Robbins gets optimal coverage, both in print and online.

Nancy Yun, Marketing Manager, The Robbins Company

Tunnelling Journal is a must read! We really appreciate the strong technical focus and quality of your editorial articles. This is something that is unique to your magazine, and it clearly shows that you are at the heart of the tunnelling industry with everything you publish.

Gerhard Kahr, Marketing Director, DSI Holding GmbH

Always a good read. The format is attractive and the regular in depth focus on technology is a differentiator for the journal.

Martin Knights, Martin Knights Consulting

TJ continues to be the premium magazine for relevant global news in the industry. The articles provide enough technical content to satisfy the hard core engineers without overloading the casual reader. The team at TJ are always approachable and their partnership with industry stakeholders is always fair and accommodating.

Matt Ross, Head of Construction, BASF Australia and New Zealand
Tunnelling Journal issues arrived and all I can say is another resounding WOW! The Lake Mead article is by far my favorite of all of them written to date. Really brilliant... thank you
Robin Rockey, Project Information Manager, Southern Nevada Water Authority

The Tunnelling Journal publication is the most sought after Tunnelling Magazine in the Melbourne office, it’s full of well written technical articles and always up to date with the latest underground technologies and innovative solutions required for the worlds expanding cities and urban environments in which we all live and work.
Chris Swaine, Senior Project Manager, Metro Trains Melbourne

Sometimes amazing that these guys find out details we don’t know yet. Always up-to-date in an easy to read format supported by good quality photographs. A good independent voice of this industry
Hartmut Reiner, Senior Underwriter Client Manager Business Development, Munich Re CIP

In my view Tunnelling Journal is the GO TO voice of the Global Tunnelling Industry. It provides concise and accurate updates with feedback and opinion when appropriate on all pertinent issues happening, in real terms today. Whether the focus is Project, Equipment or Company related I find the detail in both print and electronic format a must read
Paul Bancroft, Product Director, Komatsu

The longevity the Tunnelling Journal team have in the industry really shines through and it makes dealing with them a pleasure. The magazine/web site though both young are exceptionally well thought of and respected. They are a go to source for interesting articles and news.
Bruce Matheson, Sales and Marketing Director, TERRATEC

I still think you guys have the only rag worth taking to the loo
Tyler Sandell, Sales Manager
The Robbins Company

Since its inception I have been an avid reader of, and occasional contributor to, Tunnelling Journal. Along with its web based news service it helps to keep our global community informed of the news and views from around the world. The standard of the technical articles and site reports is excellent and the team are never afraid to take on the current issues facing the industry. Tris’ editorials are always thought provoking with the added benefit of only leaving room for half his face on the page! Something we can all be thankful for.
David Salisbury, Secretary Hong Kong Tunnelling Society

It’s always good to know that when I read the Tunnelling Journal I am being kept up to date with the latest Industry trends. It gives me an excellent technical overview into the tunnel market and helps keep me up to date on Projects and technologies being implemented. It also provides a great platform to introduce new technologies if you’re in any way connected with the tunnelling business. It’s a must read!
Thomas FURRER, Head of Business Line Geo, Leister Technologies AG
The World Leaders
Tunnelling Journal and North American Tunneling Journal (published back to back) are the leading publications for the tunnelling and underground construction industry. Produced and backed by a team with literally 10 decades of international tunnelling experience and unprecedented global contacts, the magazines deliver unrivalled editorial quality ‘from the industry - for the industry’.

A Dedicated Team
Tunnelling requires something beyond just technical expertise—it requires vast experience and the perspective that comes with it, as well as resources and commitment. The same thing goes for publishing a magazine about tunnelling.

Experience & Understanding
Headed up by the most experienced editors in the industry Tris Thomas, Amanda Foley and Kristina Smith, each issue feature’s contemporary, lively, cutting edge articles with specific and unparalleled relevance to the tunnelling contractor, consultant, client and machine manufacturer.

A Broader Reach
Published six times a year, the print copy is partnered with a constantly updated website and a regular newsletter that is delivered straight to your desktop. This ensures readers are kept abreast of breaking news and relevant industry developments as they happen. Further analysis and perspective is then offered in each published issue.
The content of a technically based magazine needs sufficient time and care to research and produce to give it both credibility and the all important relevant shelf life. Traditionally, print magazines were distributed on a more frequent basis to keep the news section current, sometimes to the detriment of the technical content of the features. But with the exponential growth and global accessibility of the internet, the way breaking news reaches its audience has changed forever.

As such, the timeliest news will be distributed via email newsletters, and constantly updated on the website. This provides valuable time and space resources to the technical site reports, research articles, product reviews and industry leader interviews that will remain as the true value of the bi-monthly print publication. There is no doubt about it, consumers still want a printed hard copy for the in depth articles, reading these on-screen is just too difficult, especially with all those graphs and equations!

To sum up, we provide a solid, thoroughly researched, genuinely informative and technical read six times a year, and instant news via the newsletters, and updated right there on the web.

Tunnelling Journal brings the industry’s leading thinkers, doers and writers together in one exceptional forum, in every issue.

We’ve decided that planning each aspect of our editorial content a year or so ahead as many other titles do could make us less flexible and responsive to an ever moving and rapidly evolving industry. Tunnelling Journal’s editorial plan includes regular regional ‘tunnelling hotspots’, or in-sight studies and interviews from specific areas around the globe where tunnelling is taking a serious hold, and importantly, where the latest leads for future work can be found.

Obviously no civil engineering magazine would be the same without its bread and butter - the site report! With more time allowed to the editorial team, and more travelling resources, we visit and report from more international tunnelling sites than any other magazine. Interviews with prominent figure-heads from the fraternity giving their opinion on all things tunnelling also feature regularly. Top this all off with regular sections on industry people, products and projects and you have the complete package.

Our team will continue to serve your team by providing the technical magazine and publication of record for the tunnelling industry.
Breakthrough
Breakthrough is the official magazine of the International Tunnelling Association's (ITA) Young Members Group (ITAym). Designed to foster international ties between young tunnelling engineers, as well as promote jobs in the underground construction industry to engineering students and graduates worldwide. The magazine is packed full of articles on everything from industry roundtable interviews, project reports and feature articles, to individual member nation activities, and researching and progressing careers in the tunnelling industry. The next edition will be distributed at WTC 2020 in Kuala Lumpur by the ITA Young Members and the Tunnelling Journal team, and mailed with the June/July 2020 issue of Tunnelling Journal.

World Tunnelling
The last issue of World Tunnelling was published by Aspermont Media Ltd in April 2016. The rights to publish World Tunnelling after the April issue have been purchased by TGS Media Ltd, the publisher of Tunnelling Journal. TGS Media has amalgamated World Tunnelling’s past history and good name with Tunnelling Journal’s strong and growing industry reputation for quality and commitment. Merging World Tunnelling with Tunnelling journal allows TGS Media to offer you a broader reach than ever before.

A&NZ Journal
Tunnelling Journal has formed a partnership with both the Australian and New Zealand Tunnelling Societies. The A&NZ Journal is published by Tunnelling Journal and distributed internationally with the April/May and October/November issues, as well as the 700+ Australian and New Zealand members. The April issue of the A&NZ Journal will be distributed at WTC 2020 in Kuala Lumpur and NAT 2020 in Nashville. A digital edition is also made available on the Tunnelling Journal and both society websites.

ITA Activity Report
This magazine contains reports from all the International Tunnelling Association member nations, including current association activities and tunnelling works in each country. Plus what future tunnelling works are in the pipeline. The next issue will be distributed by the WTC 2020 in Kuala Lumpur and with an issue of Tunnelling Journal.

“we hope that a specific magazine publishing the reports will be more effective in conveying the messages to those not necessarily present at the General Assemblies and making them easily available to all” Jenny Yan (ITA President)
2020 Editorial Program

February/March
Ad booking deadline 20th Jan
Ad copy deadline 24th Jan
Technical Focus: Waterproofing/Data management/AI
Plus free distribution at:
WTC 2020, Kuala Lumpur - NAT 2020, Nashville, USA
Breakthrough... ITA Young Members magazine ... published by Tunnelling Journal and distributed at WTC with the June/July issue and to all the ITAYM nations

April/May
Ad booking deadline 16th Mar
Ad copy deadline 20nd Mar
Technical Focus: Segmental Linings/Refurbishment
BIG SHOW ISSUE
Special Preview: WTC 2020, Kuala Lumpur, 15th - 21st May, NAT 2020, Nashville, 7th - 10th June
Plus free distribution at both the above shows
The Australasian Tunnelling Society Journal will now be published by Tunnelling Journal and distributed internationally with the April/May and Oct/Nov issues as well as to all ATS members

June/July
Ad booking deadline 11th May
Ad copy deadline 15th May
Technical Focus: Monitoring/Digital Construction
Special Preview – NAT 2020 - Part 2
Plus free distribution at: NAT 2020
Breakthrough ITAYM magazine ... distributed with this issue of Tunnelling Journal and at WTC

September
Ad booking deadline 24th Aug
Ad copy deadline 28th Aug
Technical Focus: Lining Technologies/Slurry Separation
Special Preview: BTS 2020, London 6th - 7th October
Plus free distribution at: BTS 2020, 6th - 7th October, Cutting Edge 2020

October/November
Ad booking deadline 21st Sept
Ad copy deadline 25th Sept
Technical Focus: Mucking Out & Logistics/Dewatering and Pumps
Australasian Tunnelling Society (ATS) Journal distributed internationally with this issue of Tunneling Journal

December/January
Ad booking deadline 16th Nov
Ad copy deadline 20th Nov
Technical Focus: Advances in Tunnelling Machinery
Plus free distribution at: George A. Fox, January, New York, USA

Including the technical focuses listed above, each issue will also feature:
International Hot Spots – TJ will take a lively in-depth look at one of the current tunnelling hot spots from around the world... Site Reports – helmet and boots on, we report from a selection of the industry’s key global tunnelling projects... Industry Profiles – as you have seen already in our past issues, we get the exclusive interviews with the leading industry experts... Technical Focus – we examine new tunnelling technology and give it the space it deserves... Product Insights – got a product or services that you want to share with the industry? Send it to us and we’ll get it in the magazine and in front of the professionals.

Tunnelling Journal. We’ve got it covered

Tris Thomas
Editorial Director
A product of generations of Cornish miners and mining engineers, Tris followed in the family tradition of going underground at the age of 18. Upon realising life could be slightly less punishing than 12 hour shifts collaring off 3m compressed air leg drill steels, Tris enrolled at the UK’s world renowned Camborne School of Mines in 1988, graduating with an HND in 1991. Then after gaining his Honours degree at University in London, he travelled to Australia in 1996 where he sub-contracted in the mining and exploration departments on Western Australia’s goldfields. Upon returning to the UK in 1999 he was offered a job as a trainee technical writer on Tunnels & Tunnelling International. Within two years Tris was to become the magazine’s editor, and with a solid team he steered the magazine from troubled waters back to premiership status. After 10 years with T&TI, Tris felt it was time for a new challenge, but still enjoys working in the industry and editing Tunnelling Journal, a magazine proud to be ‘from the industry, for the industry’.

Amanda Foley
Consultant Editor
The youngest member of the Tunnelling Journal team, Amanda was brought up in North London by a family of graphic design and media professionals. Following several years of working for PR agencies in and around London, Amanda took on the position of marketing coordinator for a tunnelling recruitment agency in 1999. In this role Amanda attended British Tunnelling Society meetings and having witnessed the members’ passion and enthusiasm for their work she soon became entombed within the industry. When a job opened up in early 2000 for an editorial assistant on Tunnels and Tunnelling International, Amanda jumped at the chance! She quickly progressed to deputy editor and in early 2008 also took on the additional role of editor on T&T North America. Amanda decided it was time for a change of scene and for the last 6 years has been working as the editor of North American Tunnelling Journal, while traveling around North and Central America.

Gary Tween
Managing Director
Gary started his publishing career in January 1989 working for Benn Publications as a sales executive on a magazine called Printing Today. In his first full year Gary increased the advertising sales revenue by a record 80.33% on the previous year. Still at Benn’s (later to become Miller Freeman), Gary worked on leading titles within the flooring and then furniture industries, securing his first managerial role in April 1996. Looking for a new challenge, Gary left Miller Freeman in August 2000 and joined Polygon Media to manage one of their magazines Tunnels & Tunnelling International, playing a key role in growing the business. Over 18 years in an industry that he now calls home, Gary has continued his publishing adventure as a partner with Tunnelling Journal and is as committed as ever to delivering a quality magazine that the tunnelling industry wants and deserves.

Daniel Lee-Billinghurst
Sales Director
Daniel has 28 plus years’ experience in sales, 10 of those in Recruitment. He started his publishing career as a sales executive working for the local paper, Friday-Ad. In December 1992 he joined Wilmington Publishing for a five year period working on their industrial portfolio, starting in junior sales working up to management. He has since worked for organisations including Capital Radio, LBC & News Direct radio stations, Totaljobs.com, HPCI Media & various recruitment consultants. He has had many successes in his career working on key accounts including Emirates, DHL, Virgin, Lotus, Bayer, Siemens, Hitachi & Omron to name a few. He has a true interest in the tunnelling industry having recruited civil, geotechnical & tunnelling engineers in opportunities globally for over 16 years. I know the difference between TBM, EPB, SCL & cut & cover, but I would never call myself an expert. He hopes that his recruitment, print & online experience will be an asset to Tunnelling Journal.

Rory Harris  
Chairman  
Rory graduated from London University in 1980 with a degree in Geology and spent seven years working as a geologist in the oil industry in Europe, Middle East, and Africa on both land and offshore installations. In 1987 he joined what became the Minova Group working in the Civil market in the UK, predominantly in the gunite market, but also supplying the grouting system for Channel Tunnel. Rory moved to the USA in 1990 to what was originally known as Celtite Inc, the supplier of resin cartridges to the Tunnelling and Mining Industry, where he remained for nearly twenty years. The last ten years were spent as CEO of Minova USA (until 2009), which supplied a wide range of products for Roof Bolting, Ground Consolidation, and Coatings Applications on projects throughout North and South America.

Binda Punj  
Digital Marketing Manager  
Binda is the newest member of the team and she brings with her a wealth of sales experience, which has been successfully developed across various industry sectors. Her first sales management role was at Orion Media Marketing, a leading supplier of IT products and services. This role involved coaching and managing a sales team, tasked with servicing major corporate accounts such as Rolls Royce, British Aerospace, Credit Suisse and Goldman Sachs to name a few. Binda has a natural ability to develop strong working relationships with customers and over the past 7 years Binda has enjoyed working within the tunnelling sector. During this time she has developed sales by providing advice to international clients to support their advertisement needs across both print and online media. Binda also has extensive experience attending and supporting international exhibitions and events, and now is looking forward to opening up a new chapter in developing her career and in particular working with the Tunnelling Journal team and their clients.

Kristina Smith  
Consultant Editor  
Kristina has been writing about civil engineering and construction for the past 20 years. Starting out as a technical writer on Construction News, she progressed to features editor, before being poached by Property Week to be assistant editor. After a stint as editor on monthly magazine Construction Manager, Kristina began her freelance career in a bid to balance home and work commitments. Tunnelling articles are among her favourites, with every assignment offering the chance to learn something new and talk to some of the world’s most interesting engineers and experts. Kristina has been writing for Tunnelling Journal for five years, covering topics from tunnel linings to deep interventions, and reporting on tunnelling projects around the world.

Mark Piper  
Finance Director  
Mark graduated from University of East Anglia in 1985 with a First Class degree in Chemistry and spent five years working as a Research Chemist in the agrochemical industry. Looking for a new challenge Mark qualified as a Chartered Accountant in 1993 and joined Burmah Castrol plc in the group head office. Moved to Burmah Castrol’s Minova business unit in 1998 as Group Finance Director. Mark headed the Minova group’s international finance function through a period of exceptional growth and under three different owners before leaving the company at the end of 2008 following its sale to Orica.
